

## SEESAW – Logging on as Teacher.

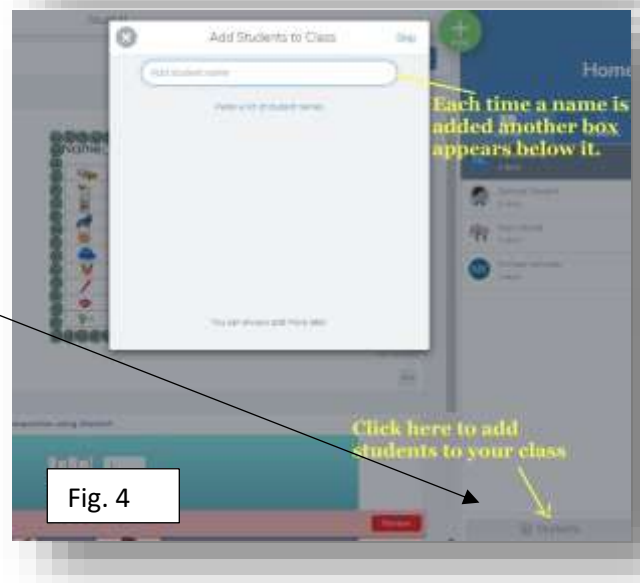

1. Sign up as a **teacher** by clicking on “I’m a Teacher” (Fig. 1) and then on “Create Account” (Fig. 2)

2. Create a new class by clicking + button and then name the class as “Yourname Class”

3. Add pupils to your class – five students will do for this webinar (Fig. 4) Pupils can have made-up names if you wish to maintain anonymity. Firstly, you must click on the + students button as highlighted here.

- 4. By clicking on the green + button a dropdown menu appears allowing you to
  1. Browse the Activity Library, with loads of prepared activities.
  2. Create an activity of your own.
  3. Post to Student Journal – commenting on work completed or assigning new work.
  4. Send an announcement to all members of the class.

Fig. 5

- 5. The first option is Seesaw Activity Library (Fig. 6) – activities prepared by teachers for teachers. Please ensure to view the Community tab first. Can be searched by topic or class level (at the bottom). When an activity is shared with a class, each member of the class is expected to read (or listen to) the instructions and complete the activity. Then the teacher can add a comment or others can like it (if this is not switched off).

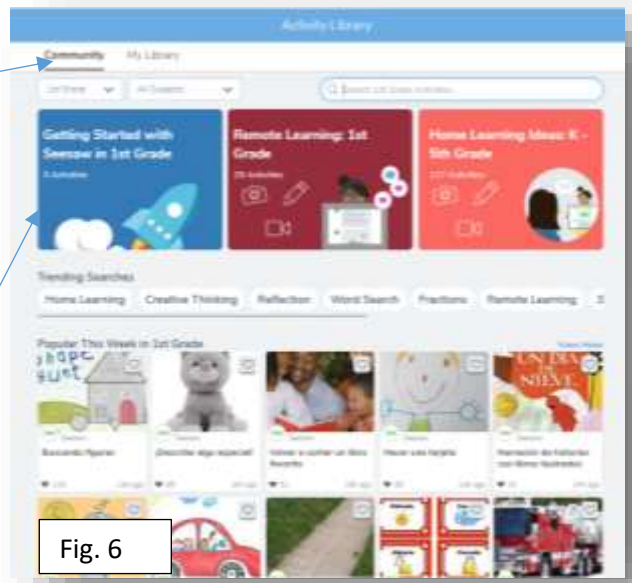

Fig. 6

- 6. Activity 1: We will begin with a Maths activity from “Getting Started with Seesaw in 1st Grade” – click on the activity and assign it to your class (if you would prefer, seek out a more appropriate Maths activity for your age group and assign it instead).

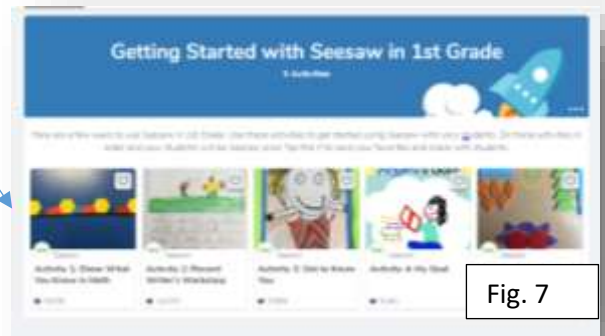

Fig. 7

- There is an option on the top left corner (Fig. 8) which allows the teacher to Create New Activity (from scratch) or Share an Activity already saved in My Library. Here in My Library you can have your assignments saved from year to year ready to be assigned again. There is a full list shown here of the activities previously assigned by the teacher.

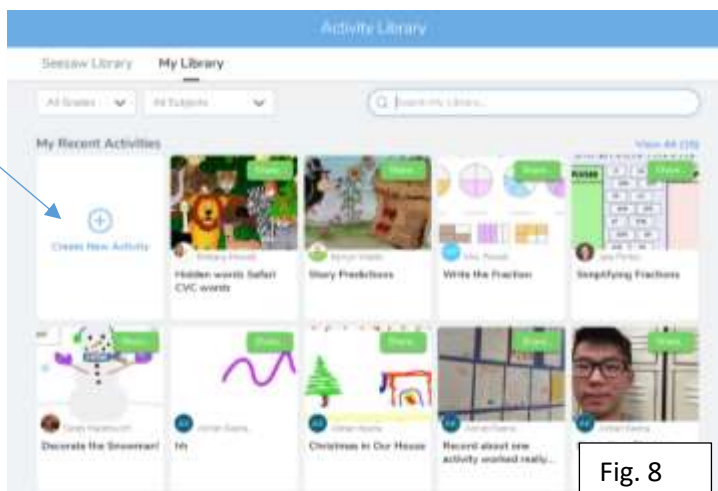

Fig. 8

- When you click on “Create New Activity” – Fig. 9 below is the box presented.

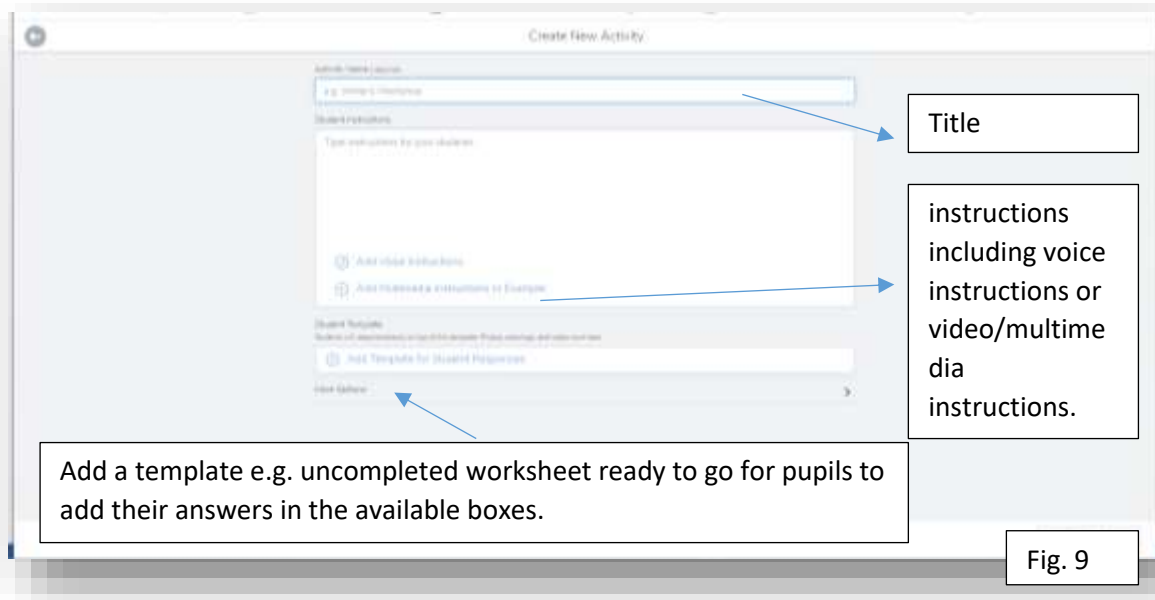

Fig. 9

- Here we have uploaded a picture from Bua na Cainte to enable pupils to continue their Bua na Cainte programme. They can use the pen tools or Text tool to complete their answers. Then they click the green correct symbol to post their work on their blog.
- Good luck with your work!
